INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Feather River Tribal Health, Inc. 2145 Fifth Avenue Oroville, CA 95965

I have audited the accompanying statement of financial position of Feather River Tribal Health, Inc. (a nonprofit corporation) as of September 30, 2008, and the related statements of activities and cash flows for the year then ended. These financial statements are the responsibility of Feather River Tribal Health, Inc.'s management. My responsibility is to express an opinion on these financial statements based on my audit. The prior year summarized comparative information has been derived from Feather River Tribal Health, Inc.'s 2007 financial statements and, in my report dated December 19, 2008, I expressed an unqualified opinion on those financial statements.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Feather River Tribal Health, Inc., as of September 30, 2008, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, I have also issued a report dated January 9, 2009, on my consideration of Feather River Tribal Health, Inc.'s internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and important for assessing the results of my audit.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities
Feather River Tribal Health, Inc. (FRTH) was incorporated in 1999 under the laws of the State of California and provides comprehensive health care services to the Native-American population located primarily in Butte, Sutter, and Yuba Counties of California.

FRTH'S main sources of revenue are federal and state grants and contracts, private insurance patient service billings, IHS/MOA Medi-cal, and FQHC Medicare patient billing reimbursements, for services provided in Butte, Sutter, and Yuba Counties of California.

Income Tax Status
The Internal Revenue Service has ruled that, pursuant to Section 501(c)(3) of the Internal Revenue Code (the Code) FRTH is exempt from Federal income taxes and is a publicly supported organization as defined in Section 509(a)(1) of the Code. As a not-for-profit organization, FRTH is also exempt from state income taxes under Section 23701(d) of the State of California Revenue and Taxation Code.

Basis of Accounting
The financial statements of FRTH have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables, and other liabilities.

Basis of Presentation Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards (SFAS) No. 117, Financial Statements of Not-for-Profit Organizations. Under SFAS No. 117, the Organization is required to report information regarding its financial position and activities according to three classes of assets; unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comparative Financial Information
The financial statements include certain prior-year comparative summarized information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Organization's financial statements for the year ended September 30, 2007, from which the summarized information was derived.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, FRTH considers all unrestricted highly liquid investments with an initial maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable are stated at unpaid balances, less an allowance for doubtful accounts. FRTH provides for losses on accounts receivable using the allowance method. The allowance is based on experience, third-party contracts and other circumstances, which may affect the ability of patients to meet their obligations. Receivables are considered impaired if full principal payments are not received within the contractual terms. It is FRTH's policy to charge off uncollectible accounts receivable when management determines the receivable will not be collected.

Property and Equipment

All acquisitions of property and equipment in excess of \$5,000 are capitalized, except computer equipment. All computer equipment is expensed in the year of acquisition. Property and equipment are carried at cost if purchased or, if donated, at the approximate fair value at the date of the gift, less accumulated depreciation and amortization. Depreciation is provided on the straight-line basis over the estimated useful lives of the assets, generally five years. Buildings are depreciated over a forty year useful life. Assets purchased with funds received from grants in which the grantor retains a reversionary interest in the assets at the end of the grant period are expensed in the year of acquisition.

Pre-acquisition, acquisition, development, and construction costs associated with real estate development and construction activities are capitalized when incurred. Interest costs are capitalized when incurred where proceeds were used to finance the above-mentioned costs.

Deferred Revenue

Deferred revenue is primarily comprised of funds received from contracts and grants that will be recorded as revenue when eligible costs have been incurred.

Concentration of Accounts Receivable Accounts receivable amounts are due mainly from third party payors such as Medi-Cal, Medicare, and private health insurance companies. Amounts not collected from third party payors on receivables of eligible patients are written off to revenue adjustment accounts.

Concentration of Sources of Revenue Approximately 53 percent of FRTH's total revenue was provided by the Department of Health and Human Services, Indian Health Service and 39 per cent of FRTH's total revenue was provided by private insurance patient service billings and IHS/MOA Medi-cal and FQHC Medicare patient billing reimbursements for services provided in Butte, Sutter, and Yuba counties of California.

(Page 7)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Restricted and Unrestricted Revenue
Unrestricted funds received for FRTH's programs are recognized as support when received. Federal contract and grant awards, State grant awards, and other supports restricted by the funding agencies for specific purposes are recognized as support to the extent of related expenses

incurred in compliance with the specific restrictions. The unexpended funds are reported as deferred revenue on the statement of financial

position.

Donated Services
No amounts have been reflected in the financial statements for donated services. FRTH generally pays for all services requiring specific expertise. However, some individuals volunteer their time and perform a variety of tasks that assist the Organization with specific programs and various committee assignments. Management estimates the fair value of these services to an immaterial amount.

Expense Allocation
The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of functional expenses. Accordingly, certain costs have been allocated among programs and supporting services benefited.

Reclassifications
Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with presentation in the current-year financial statements.

Fund Accounting
To ensure observance of limitations and restrictions placed on the use of resources available to the entity, the accounts of the entity are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purposes. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds that have similar characteristics have been combined into fund groups. Accordingly, all financial transactions have been recorded and reported by fund group.

NOTE 2 - ADVERTISING
FRTH uses advertising to promote its locations and services. The cost of advertising is charged to an expense as incurred.

NOTE 3 - CONCENTRATION OF CREDIT RISK

Feather River Tribal Health, Inc. maintains its demand deposits at three financial institutions located in Oroville, CA. However, deposits at these financial institutions at times exceed the Federal Deposit Insurance Corporation (FDIC) insurance limit of \$100,000. As of September 30, 2008, all demand deposits were covered by FDIC insurance or fully collateralized by the financial institutions.

(Page 8)

NOTE 4 - PATIENT ACCOUNTS RECEIVABLE

Revenues and receivables are recorded at the gross amount of the billing. Accounts receivable are due mainly from third party payors such as Medi-Cal, Medicare, and private health insurance companies. The mix of receivables from patients at September 30, 2007 and 2008 is as follows:

| Medical Medicare Patient private insurance Self-pay patients Allowance for Doubtful Accounts | 9/30/07 \$ 318,377 44,184 104,193 30,556 (32,732) \$ 464,578 | 9/30/08 \$ 396,635 148,452 134,538 32,217 (68,157) \$ 643,685 |
|--|--|---|
| TOTAL PATIENT ACCOUNTS RECEIVABLE, NET | \$ 464,578 | \$ 643,685 |

NOTE 5 - ALLOWANCE FOR DOUBTFUL ACCOUNTS

FRTH uses the allowance method for recording uncollectible accounts receivable balances. It is FRTH's policy to charge off uncollectible accounts receivable when management determines the receivable will not be collected. The accounts receivable have been reported net of an allowance for doubtful accounts of \$68,157.

NOTE 6 - PROPERTY AND EQUIPMENT

Property and Equipment at September 30, 2007 and 2008, consist of:

| UNRESTRICTED: Furniture & Equipment Land - Oroville, CA Building - 2145 Fifth Ave., O Building - 2145 Fifth Ave., O Accumulated Depreciation | Proville, CA | 9/30/07 \$ 580,920 626,743 8,712,525 103,019 (1,647,613) 8,375,594 | 9/30/08 \$ 590,783 626,743 8,712,525 2,416,763 (1,911,335) 10,435,479 |

Depreciation expense for the years ended September 30, 2007 and 2008 was \$245,729 and \$263,721, respectively.

NOTE 7 - LOANS PAYABLE

FRTH has three loans that were used to construct and expand an office and clinic facility, located at 2145 Fifth Avenue, Oroville, CA. These notes are secured by the land and buildings. FRTH's obligations under these loans consist of the following:

NOTE 8 - LOANS PAYABLE (continued)

USDA, Farmer's Administration (USDA), 4.50% fixed interest rate, due in monthly installments of \$18,000 including interest, through May 28, 2042, secured by a Deed of Trust on the land and building, located at 2145 Fifth Avenue, Oroville, CA. The balance of the loan as of September 30, 2008 was \$3,736,890. The total initial loan amount was \$4,000,000. A cash reserve account based on an \$1,800 monthly payment is required. The balance of the reserve account as of September 30, 2008 was \$113,400.

Bank of America (BofA), 6.75% variable interest rate, determined by the interest rate of U.S. Treasury Bonds, adjusted every ten years, due in monthly installments of \$22,519, including interest, through July 1, 2027, secured by a Deed of Trust on the land and building, located at 2145 Fifth Avenue, Oroville, CA. The balance of the note as of September 30, 2008 was \$2,855,960. The total initial loan amount was \$3,230,000. The unpaid loan balance is guaranteed by USDA Farmer's Administration.

Tri-Counties Bank of (TCB), 6.75% variable interest rate, determined by the interest rate of U.S. Treasury Bonds, plus a margin of 2.25%, adjusted every ten years, due in monthly installments of \$17,425, including interest, starting on December 27, 2008 through November 27, 2033, secured by a Deed of Trust on the land and building, located at 2145 Fifth Avenue, Oroville, CA. The balance of the note as of September 30, 2008 was \$1,884,041. The total loan amount was increased to \$2,325,156 by November 27, 2008. The unpaid loan balance is guaranteed by USDA Farmer's Administration.

The future scheduled maturities of long-term debt are as follows:

Year ending September 30:

Interest expense for the years ended September 30, 2007 and 2008 was \$374,373 and \$363,971, respectively. In 2008, \$79,123 of interest paid and other loan costs were capitalized.

NOTE 9 - VACATION, SICK LEAVE, AND OTHER COMPENSATED ABSENCES

All regular employees are entitled to accrue vacation and sick leave. Vacation leave accruals are based on length of employment and full-time equivalency status and may not accumulate in excess of an employee's annual vacation amount. Sick leave is accrued at a rate of eight days per year based on full-time equivalency status and may not accumulate in excess of 240 hours. All accumulated vacation is paid upon separation of service with Feather River Tribal Health, Inc. and unused sick leave is forfeited. The accrued vacation liability as of September 30, 2008 was \$178,090.

NOTE 10 - CASH BALANCE IN TEMPORARILY RESTRICTED FUND

FRTH's Temporarily Restricted Fund had a cash surplus of \$204,318 due to grant expenditures being less than the grant cash balances in the bank. This condition is temporary as the cash surplus was expended in October, 2008.

NOTE 11 - EMPLOYEE PENSION PLANS

Employees of FRTH are not covered by a defined benefit or a defined contribution retirement plan. All full-time employees are eligible to participate in a 401-k pension plan and become fully vested after six years. FRTH matches up to 3% of each employee's contribution based on the gross wages of each employee. Employee pension expense for the year ended September 30, 2007 and 2008 was \$71,267 and \$81,795, respectively.

NOTE 12 - INDIRECT COSTS

FRTH has negotiated a provisional indirect cost rate of 35.1% with the U.S. Department of Health and Human Services, the organization's federal oversight agency. Total direct costs, less items of equipment and other capital expenditures, subawards, and hospitalization and other fees related to patient care, make up the direct cost base to which the indirect cost rate is applied.

NOTE 13 - LEASES

A lease agreement has been entered into for office and clinic space located in Yuba City, CA. The following is a schedule by years of future minimum lease payments required that have initial or remaining noncancelable lease terms in excess of one year as of September 30, 2008:

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Feather River Tribal Health, Inc. 2145 Fifth Avenue Oroville, CA 95965

I have audited the financial statements of Feather River Tribal Health, Inc. as of and for the year ended September 30, 2008, and have issued my report thereon dated January 9, 2009. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Feather River Tribal Health, Inc.'s internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Feather River Tribal Health, Inc.'s internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of Feather River Tribal Health, Inc.'s internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the organization's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the organization's financial statements that is more than inconsequential will not be prevented or detected by the organization's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the organization's internal control.

To the Board of Directors Page Two

My consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Feather River Tribal Health, Inc.'s financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the audit committee, management, the Board of Directors, federal and state awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Directors Feather River Tribal Health, Inc. 2145 Fifth Avenue Oroville, CA 95965

Compliance

I have audited the compliance of Feather River Tribal Health, Inc. with the types of compliance requirements described by the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended September 30, 2008. Feather River Tribal Health, Inc.'s major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Feather River Tribal Health, Inc.'s management. My responsibility is to express an opinion on Feather River Tribal Health, Inc.'s compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Feather River Tribal Health, Inc.'s compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination on Feather River Tribal Health, Inc.'s compliance with those requirements.

In my opinion, Feather River Tribal Health, Inc. complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2008.

Internal Control Over Compliance

The management of Feather River Tribal Health, Inc. is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing my audit, I considered Feather River Tribal Health, Inc.'s internal control over compliance with the requirements that could have a direct and material effect on a

To the Board of Directors Page Two

major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of Feather River Tribal Health, Inc.'s internal control over compliance.

My consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies as defined below. However, as discussed below, I identified certain deficiencies in internal control over compliance that I consider to be significant deficiencies.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. I consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 08-01 to be significant deficiencies.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. I do not consider any of the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses.

FRTH's response to the findings identified in my audit is described in the accompanying schedule of findings and questioned costs. I did not audit FRTH's response and, accordingly, I express no opinion on it.

This report is intended solely for the information and use of the audit committee, management, the Board of Directors, federal and state awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SECTION II: FINANCIAL STATEMENT FINDINGS

There are no financial statement findings reported for the year ended September 30, 2008.

SECTION III: FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS

There were no federal awards findings reported for the year ended September 30, 2007.

FINDING 08-01, ALLOWABLE COST PRINCIPLES

Federal Agency: U.S. Department of Health and Human Services

CFDA #93.441, Indian Health Service, Tribal Health Program Contract # HHSI235-2006-00020-C

CFDA # 93.237, Special Diabetes Program for Indians Grant # H1D9400121-11

CRITERIA - OMB Circular A-87 (A-87) establishes principles and standards for determining allowable direct and indirect costs for Federal awards. A-87 Attachment B, Section 8 Compensation for Personal Services, contains the following requirements. Where employees are expected to work solely on a single Federal award or cost objective, charges for their salaries and wages will be supported by periodic certifications that the employees worked solely on that program for the period covered by the certification. These certifications will be prepared at least semi-annually and will be signed by the employee or supervisory official having first hand knowledge of the work performed by the employee. Where employees work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personnel activity reports or equivalent documentation. Such documentary support will be required where employees work on: (a) More than one Federal award, (b) A Federal award and a non-Federal award, (c) An indirect cost activity and a direct cost activity, (d) Two or more indirect activities which are allocated using different allocation bases, or (e) An unallowable activity and a direct or indirect cost activity. Personnel activity reports or equivalent documentation must meet the following standards: (a) They must reflect an after-the-fact distribution of the actual activity of each employee, (b) They must account for the total activity for which each employee is compensated, (c) They must be prepared at least monthly and must coincide with one or more pay periods, and (d) They must be signed by the employee.

CONDITION - I noted that FRTH did not have internal control policies and procedures in place for complying with the cited A-87 allowable cost principles, above. I consider this to be a control deficiency over compliance with the allowable costs payroll certification requirement.

QUESTIONED COSTS - I did not find questioned costs as a result of this condition.

<u>EFFECT</u> - I noted that this condition poses a possible risk to FRTH that personnel costs subject to these criteria could be disallowed by the awarding federal agency.

<u>CAUSE</u> - FRTH'S management had not received training about the criteria noted above for compensation for personal services as cited in Attachment B of OMB Circular A-87.

<u>RECOMMENDATION</u> - FRTH should devise some method(s) for complying with these requirements. Some entities comply with these requirements by including both a certification of the program being charged and a requirement for the employee's certifying signature on the time cards or time records used to record employees' hours every pay period.

CORRECTIVE ACTION PLAN DATED: 1/9/09

U.S. Department of Health and Human Services

Feather River Tribal Health, Inc. respectfully submits the following corrective action plan for the year ended September 30, 2008.

Name/Address of Independent Public Accounting Firm:

Robert F. Albonico Certified Public Accountant 1297 Saddlehorn Court Minden, NV 89423

Audit Period:

October 1, 2007 - September 30, 2008

The findings from the September 30, 2008 schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule.

FINDINGS - FEDERAL AWARD PROGRAMS AUDITS

Finding 08-01 – Allowable Cost Principles – Contract # HHSI235-2006-00020-C

Recommendation:

FRTH should devise some method(s) for complying with these requirements. Some entities comply with these requirements by including both a certification of the program being charged and a requirement for the employee's certifying signature on the time cards or time records to record employees' hours every pay period.

Action Taken:

Pursuant to OMB Circular A-87 which establishes principles and standard for determining allowable direct and indirect costs for federal awards and Attachment B, Section 8 Compensation for Personal Services, Feather River Tribal Health, Inc. has re-designed its employee time sheets to ensure that each department reports its time according to the revenue source responsible for payment. Employees who work on a single Federal award or cost objective, now charge their work hours by recording their time under the correct cost center. Each time sheet must be signed off each pay period (bi-weekly) by the employee and employee's supervisor with the statement: Employees that have more than one cost center will identify and report the correct number of hours for each cost objective.

(Page 28)

Corrective Action Plan Page Two

"By signing this time sheet, I certify this time sheet to be true and accurate and acknowledge that I have received my breaks and lunch time as required by law."

Separate timesheets have been developed for each department in order to ensure that the correct cost center is charged. Cost centers have been identified as:

Indian Health Service

Special Diabetes Program for Indians

State Indian Health Program

Nutrition (3rd party program)

Cal Works

CHAT

Butte Co. Child Abuse

SAMSHA (CCOC)

FOCIS

Third Party

A breakdown by department and individual employee has been prepared to show how the employee's time is being allocated. A copy of the breakdown by department and employee is attached to this corrective action plan.

Upon completion and submission of the time sheet by the employee, the Fiscal Department reviews the time sheet for accuracy and completeness. Fiscal staff then completes the data entry for payroll through the agency's payroll accounting system.

Following the submission of payroll through the agency's payroll accounting system, a journal entry is prepared and posted to the accounting system that distributes the employee hours to the correct cost center.

Previously, the hours were posted to third party by the Accounting Manger and then the Fiscal Officer would allocate the cost to the appropriate cost center. This practice has been eliminated.
